

Intelligent, automated customer service system

Discover the Portal TI® Ownership Experience

With its sophisticated design, versatile marketing opportunities, expanded reporting, and the most complete menu of payment options in the industry, Unitec's Portal TI entry system is truly revolutionary technology. As a recognized leader and industry innovator, Unitec Electronics is The Smart Choice in carwash entry systems. With the emergence of Portal TI, the smart choice just got smarter.

Take a quick tour of the major features

Portal TI incorporates the **most complete menu of payment options** available.

Comprehensive, easy-to-access reporting capabilities let you manage your site, cut costs, save time and generate more revenue.

The flexibility and convenience of the system make the consumer transaction user friendly.

The large, color graphics display enhances the customer interaction while guiding them easily through their carwash transaction.

The **sophisticated and secure design** keeps profits safe with the Portal TI's advanced security features.

Multiple customizable graphics panels turn your car wash entry system into an advertising billboard.

Portal TI is the smart choice for either a self-serve/investor or a petroleum/C-Store site. Best of all, this fully featured, high-tech system is compatible with rollover, tunnel, and combo washes.

The background image shows a person's hand touching a touchscreen interface on a car wash entry system. The system is labeled 'portal TI' and 'Multilingual, automated customer service system'. The screen displays a menu with options like 'Select Your Wash' and 'Print Receipt'. A receipt printer is visible below the screen. The scene is set inside a car wash bay.

“ The Portal TI is quickly becoming a vital asset to our car wash operation. The remote capabilities allow us to constantly monitor our automatic bays and the reporting is far superior to anything else on the market. Our customers are raving over the color graphics display and just how easy it is to complete their transaction. The bilingual customer interface has helped us increase our customer base among the Spanish speaking community. Unitec Electronics has always been the leader in car wash entry systems; with the development of the Portal TI entry system they have raised the bar even higher. ”
